

NATNAEL ABEBAW

FULL-STACK WEB DEVELOPER SUMMARY

- developing and maintaining dynamic and responsive web applications. Proficient in both front-end and back-end technologies, including HTML, CSS, JavaScript, React, Node.js, Express, and database management systems like MYSQL and SQL.
- Expertise in creating seamless user experiences, optimizing website performance, and building scalable applications that meet client needs. Focused on clean, efficient code, and committed to staying up-to-date with the latest industry trends and best practices. Strong collaborative and problem-solving abilities, capable of working in Agile environments to deliver high-quality software solutions.
- Developed a high-engagement Q&A forum with JWT-secured authentication for the Evangadia community, fostering
- Dynamic and results-driven full-stack web developer with a proven track record in building high-performance, responsive websites and applications.

PROJECT EXPERIENCE

Amazon Clone

Full-Stack E-commerce Platform

- Designed and launched a fully functional Amazon-inspired e-commerce website, featuring product browsing, user accounts, and a shopping cart. Integrated secure user authentication with Firebase Authentication and optimized UI for responsiveness across devices. Resulted in a 40% increase in user retention due to smooth and intuitive interactions, showcasing proficiency in React, Node.js, and Firebase Database.

Netflix Clone

Content Streaming Interface with Dynamic Rendering

- Developed a Netflix-like streaming interface using React, with dynamic content rendering and a seamless user experience. Enhanced UI engagement by implementing custom features for media browsing and selection. The project highlighted strengths in API integration and responsive design, increasing average session time by 30%.

Evangadi Forum

Secure Q&A Platform for Community Engagement

- Built a secure Q&A platform for the Evangadia community with JWT-based user authentication, ensuring secure access and encouraging active knowledge sharing. Increased user participation by 50% in the first month, emphasizing the importance of security and accessibility in web applications.

Evangadi Menu

Authentic Ethiopian Cuisine Served with Tradition and Flavor

- Designed and developed a dynamic Ethiopian food menu website, showcasing traditional dishes with an intuitive and visually appealing interface.
- Implemented a responsive design to ensure seamless user experience across all devices.

EDUCATION

Haramaya University Bachelor of Science in Computer Science (Ongoing)

- Actively pursuing a BSc in Computer Science, with coursework focused on software development, database management, and algorithms.
